An Ordinance to provide appropriations for the Fiscal Year beginning July 1, 2025, and ending June 30, 2026, for the Newberry County budget for County Ordinary purposes and for other County purposes for which the County may levy a tax and receive revenues; to provide for the levy of taxes on all taxable personal and real property in Newberry County for all county purposes, including sufficient tax to pay the principal and interest on outstanding indebtedness of Newberry County payable during said fiscal year; to provide for matters relating to Newberry County; and to provide for the expenditure of said taxes and other revenues received by the county during said fiscal year, and to provide for borrowing in anticipation of tax collections by the issuance of one or more tax anticipation notes, if necessary.

a. Public Hearing.

- Mr. Shealy declared the public hearing open.
- Mr. Tyler Johnson said he appreciates the hard work that has gone into the budget. He said he had two main points of concern with the budget. He said he liked the idea of giving pay raises but the county has had retention issues with the low salary positions and blanket percentage is not the answer to address those positions and they give an adverse effect of widening the pay gap of those higher paid employees from those lower paid employees. He said they need to find something to address the positions that they are losing so the county can have retention and not constantly be reposting job positions, as they move on to other counties for higher salaries. Mr. Johnson also addressed the use of fund balance to balance the budget. He said he knows they've talked about getting it back down because hopefully all of the departments don't do so, but he said starting off at the point of

using fund balance they need to always be adding to the fund balance, not using it. He said they know they have great deficiencies when it comes to fire services, rescue squads, keeping them furnished and those are huge price tag items. He said the only way they can do that is effectively budgeting, getting that worked into the budget on a regularly occurring schedule so they know it is coming up and they have to have it done. He thinks the best way is to always have a balanced budget and a use of fund balance to begin with, best case scenario they do come in, but they are already setting themselves up to use fund balance and that is never a good option.

- With no one else signed up to speak, Mr. Shealy declared the public hearing closed.

b. Second Reading.

- Mr. Shacker said there are 15 funds with a series of self-balancing revenues and expenditure accounts. There are four categories within the Newberry County budget: general fund, debt service fund, capital projects fund, special revenue funds (12).
- The proposed budget for next year, across all funds, totals \$94.8 million. That is a \$12.1 increase compared to the current fiscal year; this is largely attributed to the capital project fund where \$8.9 million of the increase is. That is a function of the ripening of the Capital Project Sales Tax projects.
- There is also a \$1.4 increase in the 12 special revenue funds, the bulk of which is in the Public Works grant fund where the road paving projects are budgeted – through the Newberry County Transportation Committee.
- The general fund is proposed to total \$39.9 million, a \$590,000 decrease from the current fiscal year. With the upcoming implementation of reassessment, council made it clear they did not want to increase taxes.
- Mr. Shacker said they do expect some modest increases in health and workers compensation insurance cost.

- The general fund includes capital expenditures of \$4.5 million, Mr. Shacker said they did the best they could to identify priorities but were unable to address all county needs.
- On the capital funding side, the sources of funding have changed, instead of the ARPA (American Rescue Plan Act) funds that have been closed out. The alternate sources of funding included a proposed lease purchase and a proposed GO bond that would fund these capital items.
- Mr. Sease made a motion to accept second reading; Mr. Fulmer provided the second and the motion carried 6-0.
