

**August 12, 2022  
Newberry County  
Purchasing Department**

**ADDENDUM ONE  
Request for Qualifications No.: 2022-10  
Old Landfill Monitoring & Reporting**

The following questions were presented and shall be incorporated as part of the solicitation.

What is the frequency of groundwater monitoring and reporting for the 13 groundwater wells and what are the analytical requirements per DHEC?

**The monitoring wells shall be monitored quarterly. The firm submitting a response to the RFQ should be familiar with DHEC's analytical requirements.**

What sampling methodology is used to purge and sample groundwater monitoring wells? Full purge with bailer/pump, low flow, dedicated pump?

**The O&M manual should state which method to be used, if not, DHEC's requirements shall prevail.**

Is statistical analysis required for groundwater monitoring results? If so, what type of statistical analysis?

**DHEC's requirements shall be the authority determining if statistical analysis is required.**

What is the frequency of perimeter gas probe monitoring and reporting for the six probes?

**The frequency should be monthly to ensure they are operating properly and adhere to the O&M manual and DHEC's requirements.**

What is the frequency of the Soil Gas Extraction System (SGES) monitoring and reporting?

**The O&M manual or DHEC's requirements.**

How many copies shall be submitted?

**One original and three copies**

End of Addendum

  
Crystal Waldrop, CPPB  
Purchasing Director
